SOLID GROUND SOLUTIONS LLC

Web Services for Real Estate Investors • Consulting • Telemarketing • Dialing • Ai Business Integrations

June 19, 2026

To Whom It May Concern,

It is my sincere pleasure to recommend Ziad Ahmed Haredy, who served as Platform Engineer and Team Lead at Solid Ground Solutions LLC for one year. As the company's CEO and owner, I worked closely with Ziad throughout his tenure and can speak directly to the caliber of his work, his technical depth, and the leadership he brought to our team.

Solid Ground Solutions LLC provides web services to real estate investors, spanning consulting, marketing, and dialing operations. Delivering reliably in this space demands engineers who can move quickly across the full stack while keeping client-facing systems stable and performant. Ziad consistently met that bar and frequently exceeded it.

In his role, Ziad handled full-stack development end to end architecting back-end services, building responsive front-end interfaces, and managing the platform infrastructure that everything ran on. He has a rare combination of breadth and rigor: he could take a loosely defined business need, translate it into a sound technical design, and ship a working solution without losing sight of maintainability or performance. When problems surfaced, he diagnosed them methodically and resolved them with minimal disruption to our clients.

As Team Lead, Ziad set the technical direction for his team and raised the standard of everyone around him. He delegated thoughtfully, reviewed work with care, and mentored less-experienced engineers in a way that made them measurably better. He communicated clearly with both technical and non-technical stakeholders, kept projects on schedule, and took ownership of outcomes rather than just tasks. That blend of hands-on engineering strength and dependable leadership is exactly what a growing team needs.

Beyond his skills, Ziad is conscientious, trustworthy, and genuinely committed to doing things the right way. He earned the confidence of our team and our clients alike, and he would be an asset to any organization fortunate enough to bring him on.

I recommend Ziad without reservation and would be glad to answer any further questions about his work. Please feel free to reach out using the contact details below.

Sincerely,

Signed by:
Youssef Ahmed
